

OBS Repository Rules and Information

The Repository is located at the end of Barn 5 near the maintenance office

GENERAL INFORMATION

phone (352) 237-5544 ♦ email: repository@obssales.com

Repository Hours for the October Sale: 8:00 AM - 4:00 PM
Friday, October 8 – Monday, October 11: 8:00 AM - end of sale
Tuesday, October 12 – Wednesday, October 13: 8:00 AM – noon
Thursday, October 14:

<u>Sale Date</u>	<u>Submitted by</u>	<u>Available to View</u>
Oct 12-13	Friday, Oct 8 3:00 pm	Sunday, Oct 10 12:00 pm

RADIOGRAPHS MUST NOT BE TAKEN PRIOR TO WEDNESDAY, SEPTEMBER 22.

The OBS Repository will offer consignors the option of including videos of endoscopic examinations with the radiographic study. Endoscopic videos recorded prior to October 5th will not be accepted. Placing an endoscopic video in the Repository WILL NOT affect the OBS Throat Warranty. Please refer to the attached AAEP "Protocol for Pre-Sale Video Endoscopic Examination of the Upper Airway at Public Auction". This protocol may also be found on the OBS website under the "Consignor Information" tab.

The Repository is established for consignors to deposit radiographs and other relevant information for inspection by prospective Purchasers' registered veterinarians. The deposit and inspection of information, and access to the Repository are subject to the Conditions of Sale. Below is a summary of the Conditions of Sale concerning the Repository. (Condition Thirteenth) Please refer to the full version of the Conditions of Sale which may be found in the OBS catalog and the OBS website.

Summary of Repository Conditions (OBS Condition Thirteenth)

- Repository is voluntary
- Consignor warrants all information placed in Repository is accurate, valid and authentic or horse may be subject to return
- All information placed in the Repository is the property of the Consignor or Consignor's veterinarian and may be picked up 72 hours after the fall of the hammer. Consignor may grant permission for the Purchaser to receive the information
- Purchasers are responsible for conducting a full inspection of horses and Repository information
- Purchasers acknowledge Veterinary Radiographic Reports are;
 - Subjective veterinary opinions
 - NOT a substitute for a review of actual radiographs
- OBS will NOT review or warrant Repository information

Consignor access to repository activity

- Consignors will be provided a unique URL to obtain Repository activity information on each horse in their consignment via the internet from a computer or mobile device.
- Consignors must complete a Consignor Authorization form to allow employees to obtain printed Repository activity reports from the Repository. (**see attachment 5**)

RULES FOR SUBMISSION

- Radiographs must not be taken any earlier than twenty one (21) days prior to the start of the sale and delivered to the Repository along with all other veterinary information by the deadlines outlined on the attached calendar. (**see attachment 1**)
- See **attachment 2** for the prescribed views for the Repository. Any submission with less than the prescribed views will not be accepted. Consignors may include additional views to augment the submission.
- Radiographs must be submitted in the format outlined by Asteris Veterinary Digital Imaging Keystone Repository software either online or directly to the OBS Repository. All other information should be labeled with the hip number, dam's name and entered horse's year of birth.
- A Veterinary Radiographic Report must be submitted in addition to the radiographs. OBS will supply Consignors with a "stamped" copy of the Report. **THIS IS THE ONLY REPORT A CONSIGNOR MAY USE IN PRESENTING INFORMATION TO A POTENTIAL PURCHASER.**
- **AFTER THE SUBMISSION DEADLINE ADDITIONAL VETERINARY INFORMATION WILL NOT BE ACCEPTED AND MUST BE ANNOUNCED FROM THE AUCTION STAND.**

RULES FOR VIEWING RADIOGRAPHS

- Each veterinarian desiring to inspect the Radiographs on behalf of their client, must register in person at the Repository by completing a Veterinarian Registration form. Once completed they will receive a user name and password valid for the current sale only. Veterinarians are required to register with OBS in person for each sale.
- The user name and password will allow veterinarians to view radiographs in the Repository as well as remotely via the Asteris website.
- **THE USER NAME AND PASSWORD ARE FOR SINGLE USERS ONLY. VETERINARIANS ARE PROHIBITED FROM SHARING THEIR USER NAME AND PASSWORD WITH ANYONE ELSE (INCLUDING INTERNS AND EXTERNS) REGARDLESS IF THEY ARE REGISTERED USERS OR NOT.**
- For security purposes, the Repository software has tracking capabilities for the protection of the integrity of the repository process.
- **NO PERSON MAY REMOVE, COPY OR REPRODUCE THE RADIOGRAPHS FROM THE**

REPOSITORY.

Additional Comments: _____

I (do _____) (do not _____) have direct financial interest in all or any part of this horse

This report and the findings contained herein are solely for the addressee and may not be used or relied upon by any other person or entity without the express written consent of _____. The interpretation of radiographs and findings may vary with the examiner, the type of examination requested, method of examination and a horse's changing condition. This is a report of the undersigned's findings, based on the type of examination requested by the addressee, on the date indicated. This report is limited to the findings contained herein and no other findings or opinions should be inferred beyond those expressly set forth herein. This report does not constitute a warranty or guarantee of any kind. This report is for use on horses intended for public auction while meeting the requirements of repositories currently in operation. It is not intended to be all inclusive but is meant to supply a workable format of reporting.

PROTOCOL FOR PRE-SALE VIDEOENDOSCOPIC EXAMINATION OF THE UPPER AIRWAY AT PUBLIC AUCTION

- Equipment must be capable of producing a digital video image of excellent quality.
- Horse must be identified appropriately, and that identification must be in digital format with character generation on the screen, and / or video of the catalog page, followed by unbroken video of the face prior to introduction of the scope into the nares (right or left) and up to the larynx. This is a single stream video with no editing.
- The veterinarian performing the video endoscopy may upload the video at the same time radiographs are uploaded to the OBS repository. Veterinarians or the consignor may also submit each upper airway video on an individual flash drive or CD. Upper airway videos should be stored in a file separate from the radiographs.
- Standard technique must include maximal abduction of arytenoids induced by swallowing (multiple times) and nasal occlusion. The duration of the video must be sufficient to identify all laryngeal and pharyngeal structures as well as observing their maximal function within the context of a resting exam.
- The interval between the pre-sale videoendoscopic exam and the selling session will not exceed (10) days.
